COUNTY BANKERS FORM ASSOCIATION

AFTER CHAMBER OF COMMERCE BANQUET LAST NIGHT

22 BANKS REPRESENTED

H. W. Montgomery Of Farmers' Bank Of Skidmore Elected President Of Nodaway County Bankers Ass'n.

The Nodaway County Bankers Association was formed at a meeting of twenty-four bankers of the county in the Chamber of Commerce rooms last night.

H. W. Montgomery of the Farmers Bank of Skidmore was elected president of the organization, Burt M. Rowley of the Real Estate Bank of Maryville was elected vice-president, and C. E. Donlin of the Bank of Hopkins was elected secretary of the organization.

The organization meeting followed a banquet given for the bankers by the Maryville Chamber of Commerce at which Joseph Jackson, president of the First National Bank of Maryville presided. Musical numbers were given by L. A. Richman and William Larson of the College Conservatory of Music, with Miss Ann Leonard, also of the Conservatory, at the piano. C. G. Hooper of the Farmers Bank of Maitland and secretary of group three of the Missouri Bankers Association, make a short talk at the banquet explaining the purpose of the county bankers association. Every county in Northwest Missouri with the exception of Mercer County now has a bankers association. The purpose of this organization is to co-operate with the group and state organizations, and also to form a closer unity between the bankers of the county.

It is the belief of the leaders in the co-operative banking movement that organizations of county associations would aid the banking profession throughout the state. At the regular meetings, financial questions are discussed and a general policy determined. This will facilitate a standardization of banking policies throughout the state, the initiators of the movement contend.

H. W. Montgomery of the Farmers Bank of Skidmore, and Carl Wray of the Bank of Guilford, also made talks at the banquet last night and were enthusiastic about the proposed plan of co-operation.

November 15 was selected as the next meeting date here of the Nodaway County Bankers Association. The visiting bankers will be intertained by the bankers of Maryville.

Among the bankers from out of town in attendance at the meeting were: C. A. Teson, Clyde; John Fields and George Cole, Barnard; Carl Wray, Arthur Thompson and Roxie Wilson, Guilford; E. C. Wolfers, Charles E. Donlin and O. L. Mutti, Hopkins; Roy Wolfers and David Robb of Pickering; W. E. Freytag, Graham; John W. Kennedy, W. C. Nelson, H. E. Nigh and Roy Spoonemore, Parnell; R. I. Bilby and H. C. Bailey, Quitman; George P. Shoptaugh and Z. R. Alexander, Elmo; C. I. Hann, Burlington Junction; J. S. Casteel and Fay H. Casteel Ravenwood; C. E. Linville and H. W. Montgomery, Skidmore.

Faster Revenue Ships Needed by Government

Great Britain Will Not Aid U. S. Unless More Revenue Cutters are Supplied to Patrol Coast

Washington, Oct. 9 — The war against bootleggers, who smuggle liquor into the United States from ships out of the three-mile limit, will not be aided by Great Britain, unless the United States supplies more funds for the building of additional revenue cutters, officials said today.

The greatest drawback to the campaign against the liquor ships is the slowness of the cutters. Only four vessels are swift enough to catch the ships used by the rum smugglers. What is needed, officials said, is a half dozen ships to keep up a constant patrol.

Zepplin Plant May Move to United States Soon

If ZR-3, Huge U. S. Dirgible, is Successful in Flights, Company May Transfer Interests to America

Berlin, Oct. 9—The Zepplin Company, which is building the dirgible ZR-3 for the United States Navy, may transfer its gigantic plant from Germany to the United States, if the ZR-3 proves a success and crosses the Atlantic without mishap, it was learned here today.

Zepplin officials have declared they would like to transfer their plant to the United States. Already a company is being organized to finance such a projeet contingent upon the success of the ZR-3. Unfortunate accidents have delayed the construction of the dirgible and it will be next spring before the big ship is ready for trial.

It is hoped that it will be ready to start to the United States about June. If the ship fails, the company will be handicapped for several years because of a lack of funds in Germany.

DOCTOR GIBSON TO BE HERE SATURDAY

NOTED VETERINARIAN WILL SPEAK AT LIPPMAN'S FARM

WILL DISPLAY FILMS

Doctor Raffensperger Another Famous Veterinarian Is Expected—To Speak About Parasites

R. A. Kinnaird, county farm bureau agent, has received definite word from Dr. J. I. Gibson of St. Joseph that he will be here Saturday to speak at the Roy Lippman farm. Doctor Gibson also has written Mr. Kinnaird that in all probability Doctor Raffensperger will be here to talk on parasites in swine and domestic animals. Doctor Raffensperger is the man who did the microscopic work on the film that will be shown and has had charge of hog worm eradication in McClaine County, Ill.

Mr. Kinnaird has sent out the following letter to all the farm bureau members in the county:

On Saturday afternoon, October 13 at 2:00 o'clock, we will have one of the most valuable demonstrations of the year at the home of Roy Lippman, four miles osutheast of Maryville.

Mr. Lippman is the only man I know of in the county who has followed strictly the system of raising hogs to keep them free from worms that was explained in the motion pictures on hog worms that I showed over the county last fall. For several years, Mr. Lippman has had bad luck with his pigs but this year by following the system described, he has raised 124 pigs from eighteen sows, all fine healthy pigs, the earliest of which are now averaging about 275 pounds. He ahs nearly 100 fall pigs started off by the system. If you have been having any trouble with your pigs, I think it will be well worth while for you to come to Mr. Lippman's farm next Saturday afternoon and see how he has gotten away from most of his trouble.

Dr. J. I. Gibson, Livestock Commissioner for South St. Joseph Livestock Exchange will be here and will show the films at Mr. Lippman's place. Dr. Gibson was formerly state veterinarian of Iowa, a man of wide experience as a veterinarian and a very entertaining speaker. He has visited large numbers of farms in Missouri and adjoining states, where the hogs have been raised by the worm-free system. His report on the success of this system on many other farms ought to be valuable information to you.

CARL GORDON IS RUN DOWN BY CAR

NEAR HOPKINS—DIES SOON AFTER THE ACCIDENT.

DETALLS ARE LACKING

Is Struck When Crossing Road Looking for His Dog—Survived by 6-Year-Old Sister.

Carl Gordon, 4-year-old son of Mr. and Mrs. Galen Gordon, one mile north of Hopkins, was run down and killed about 1 o'clock this afternoon in the road near his home.

The boy's parents were in Hopkins today helping with a church dinner being given there. Some painters were working on his father's house and the small son was watching them and playing with a pet dog.

After a short time, the dog disappeared and the Gordon boy thought that it had gone over to the home of his aunt, Mrs. Glen Gordon, just across the road.

As he was crossing the road, he was struck by a Ford car driven by Casius Horn, a workman in a Hopkins garage. According to information from Hopkins this afternoon, Horn was unable to stop his car before the fatal accident.

But little information could be obtained from Hopkins this afternoon and further details of the accident were lacking.

Galen Gordon, the father of the boy who was killed, is a farmer, living about one mile north of Hopkins. Besides his father and mother, Carl is survived by a sister about 6 years old.

Arrangements for the funeral had not been made at a late hour this afternoon.

BLOC MAY REVISE HIGH TARIFF LAW

DEMOCRATS AND SOME REPUBLICANS FORM ALLIANCE

CAUSE OF DEPRESSION

Senator Fletcher Of Florida Says Tariff Wall Has Wrecked Foreign Markets For American Farmers

Washington, Oct. 9.—An alliance of Democrats and progressive Republicans may result in a complete revision of the Fordney-McCumber tariff bill in the next Congress.

Charging that the present high tariff wall was primarily responsible for the current farm depression, Democratic leaders were reported to be lining up with certain Republicans to force a resumption of the tariff war as soon as Congress reconvenes.

The movement gained headway when President Coolidge, himself, ordered the United States Tariff Commission to launch an investigation on rates on farm products to determine whether farmers were being discriminated against in the present law.

This viewpoint was revealed today by Senator Duncan Fletcher, Democrat, of Florida, leader of the opposition to enactment of the present tariff law.

Fletcher charged that the McCumber act had destroyed foreign markets for the American farmer, while forcing him to pay wartime prices for everything he purchases in the home markets.

"The trouble with agriculture is caused primarily by the high tariff wall," Fletcher said. "The farmer asks only fair treatment, but he is not accorded it under the present tariff law. The deflation in finance and credit has caused a fluctuation in credits in farm properties that has amounted to 9 billion dollars. On top of this, the purchasing power of farm products decreased one-third, while farm equipment and labor have remained the same.

"When the tariff law was passed, which wrecked foreign markets for the American farmer, he faces a situation today that the more he produces, the greater is his financial loss.

"The present tariff law has destroyed the European markets for the American farmer. Countries which are unable to pay gold for American goods cannot trade with us, because the tariff wall virtually excludes their goods.

"European nations can trade on an even basis with Canada, Australia and even Russia, as they do, to the loss of our American farmers.

"The second effect of the present tariff law is to make the farmers pay wartime prices for implements and other supplies, and at the same time the tariff in no way increased the value of his products. The fact is that the value of farm products has decreased since the Fordney-McCumber bill was passed. There should be a revision downward of the whole tariff wall."

Providence Endangered by Sweeping Blaze

Fire Is Raging And Damage Is Estimated At One Million Dollars —Started Near Waterfront

Providence, R. I., Oct. 9—The city's entire fire-fighting force was called upon this afternoon to save Providence from the worst blaze in its history.

The first fire broke out near the waterfront. An hour later, the fire had not been brought under control and it continues to spread. A number of buildings have been destroyed. The frames firing above the adjoining buildings could be seen for miles around and attracted thousands of persons to the scene. The damage so far is estimated at one million dollars.

Thousands of tons of coal went up in smoke when flames swept through the Providence Coal Co. Every building in the vicinity was damaged. Two dredge boats, tied up at the pier, caught fire.

CATTLE AND LAMBS STRONGER—HOGS ARE LOWER.

Kansas City Stock Yards, Oct. 8.—Cattle receipts today were only 28,000, the smallest on any Monday since July and 45 per cent less than the big day this year, August 27. However, all other markets reported liberal runs and lower prices. Here, the market was strong to 15 cents higher. Fresh declines were reported for hogs at all the principal markets. Here the decline was 10 to 15 cents. Sheep and lambs were in active demand at higher prices.

Today's Receipts.

Receipts today were 28,000 cattle, 18,000 hogs, and 14,000 sheep compared with 35,000 cattle, 20,000 hogs and 12,000 sheep a week ago and 30,100 cattle, 12,250 hogs and 11,525 sheep a year ago.

Beef Cattle.

Trade in fat cattle opened early at strong to 15 cents higher prices. This advance was well maintained throughout the day and showed in practically all classes that went into killer's hands. Fed steers remained scarce and the few here sold readily. Grass fat steers were in active demand and the better kinds ruled higher. A good many plain and common steers brought last week's prices. Trade in cows and heifers was active. Range cows were mostly 10 to 15 cents higher. Canners and cutters were strong. Veal calves and bulls were steady.

Stockers and Feeders.

Trade in stockers and feeders was active at stronger prices. One 26 carload bunch of Texas stockers sold at $6.50 and other good to choice Panhandle stockers brought $6.00 to $7.15. Choice feeders were scarce. Plain classes were plentiful. Stock calves, cows and heifers were stronger.

Hogs.

Prices for fat hogs were 10 to 15 cents lower. At more Eastern markets liberal receipts and lower prices were quoted. Here receipts were less than a week ago, but eastern declines forced the market down in the west. The top price was $7.85 and bulk of sales $6.85 to $7.80. Packing sows sold at $6.25 to $6.50 and pigs and stock hogs at $6.25 to $6.75.

Sheep and Lambs.

Trade in the sheep division was active at unevenly higher prices. The best lambs sold at $13.00 to $13.25, and they were mostly 40 cents higher than last week's close. Native lambs sold at $12.00 to $12.65, or 25 cents higher. Fat sheep and feeding lambs were scarce.

Horses and Mules.

This week's auction opened the trade in good horses and mules at prices fully steady with last week's advance. Other classes sold slowly.

American Royal Entries Large.

Entries in all divisions of the American Royal Live Stock Show November 17-24, are materially larger than at any previous show. The increase is in all classes. The car-lot exhibit of both cattle and swine in fat and feeder divisions will show the biggest increase.

To Sell State Cement at Actual Cost

Proposal To Furnish 400,000 Barrels For Road Work Made To Commission Today

Jefferson City, Oct. 9—An offer to furnish Missouri with 400,000 barrels of cement a year at actual cost, for the construction of hard-surfaced roads, will be submitted to the state highway commission at a meeting in Kansas City today by William Volker, wealthy manufacturer and philanthropist of Kansas City, according to a statement from the highway department late today. The meeting at Kansas City will be for the purpose of considering the bids submitted Sept. 28 for the erection of a cement plant devoted exclusively to the production of cement for Missouri roads and the furnishing of the material in large quantities. All of the bids submitted were closely similar in price and the prices offered were only slightly less than the price road contractors now pay for cement.

Volker, who is head of the Great Western Cement plant, near Fort Scott, Kan., and who lives in Kansas City, offers to remit to the state highway commission all profits on cement to the amount of 400,000 barrels a year, according to the statement. The cement is to be furnished by his plant.

Will Be $160,000 Donation

"It is estimated that this will mean a personal donation of at least $160,000 a year, or $800,000 in five years, from Mr. Volker, as a public spirited Missourian," the statement said. Even a proportionate part of the salaries of the president and secretary-treasurer of the company will be deducted from the cost, it was said. Mr. Volker agrees that the books shall be audited quarterly by the state highway commission to determine the cost. Engineers of the highway department estimate that road requirements will necessitate 400,000 barrels of cement annually.

The plant, which is located at Mildred, a short distance from Ft. Scott, was rebuilt in 1922 and experts pronounce it modern in every respect, it was stated at the highway department. The annual capacity is over 1,200,000 barrels.

The plant has orders for the other two-thirds of its capacity which will proportionately reduce the cost of the proportion tendered to the highway commission, the statement said.

Bid Was Lowest

Volker's plant belongs to the Association of Cement Manufacturers and its bid at most points of delivery was about the lowest of the bids opened Sept. 28, according to officals in the highway departments today.

The highway commission can legally accept the bids, with Mr. Volker's supplementary personal offer, or it may, under the law, reject all bids and make a contract with the company, supplemented by one with Volker, according to the officials.

One of the members of the staff of the highway department speaking of the offer, said:

"Mr. Volker owns 92 per cent of the capital stock together with all of its bonds. He is ready to give guarantes for the performance of his personal contract which, if observed, does not affect his company's relations with rival organizations since he does not cut prices of cement but retains all profits, thus furnishing cement at cost.

MAN AND WIFE BANKRUPT

Voluntary Petitions Filed by Mr. and Mrs. John F. Iden of Near Bigelow, Mo.

(St. Joseph News-Press)

John F. Iden, farmer and owner of the southern half of the east shore of Big Lake, near Bigelow, in Holt county, and his wife, Sarah R. Iden, filed voluntary positions in bankruptcy in federal court this afternoon. Fourteen cottages, a hotel, dancing pavilion, pool hall and other amusement establishments are on the land owned by Iden.

Iden lists his debts at $85,924 and his assets at $20,066 of which $16,000 is listed as real estate. The debts consist almost entirely of mortgages and notes owed to Bigelow, Fortescue and Mound City individuals and banks. Mrs. Iden's petition lists her as being jointly responsible for mortgages and notes to the amount of $80,450. She lists only $400 in assets.

Among the creditors are listed the Bank of Fortescue at Fortescue, and R. F. Paynter of Holton, Kan., as holding mortgages for $16,500. George W. Hinkle of Bigelow and Phillip Davis of Mound City are listed as holding mortgages for $7,500.

The north end of the east side of the lake is owned by Coke Jackson, who has about an equal number of cottages and amusement places as has Iden. These two men operate all of the cottages and amusement places at the lake.
